A Mixed-Lp Case Before a Spokane Falia Judge

Spokane I alis W T Nov 19—The int of Fannie B Lewis to recover \$4000 lost at the gambling table by her husband c ame up in the district court to-day on a motion to vacate the order of arrest under which John Lithgrew and Ed Duffee proprietors of the gambling house where the money was lost were committed to just

Hinkle & Alien who appeared for the de-fandant, claimed that the proof was itsulficient to detain their clients in prison Hinkle stated at length the revons in support of his motion when Judge Nash interrupted him by asking Is this about gambling?

reasonable or probable that a min hould take \$5000 ont of a bank not it is claused and deposit it in a gambling house. It does look unreasonable and improbable replied Judges Vash but men do strange things sometimes. A gambling house certainly is not a good place to do a banking business. I am satisfied that we cannot dispose of this case without a thor ough investigation. I am determined to get to the bottom. The understanding is that this noney was deposited with the e-men added the judge turning to Mr. Griffiths.

'Yes, sir replied the latter.

'Yery will then. We will go into it thoroughly and completely. But if the money went a round about way through a fare bank for chips into the cash crawer. I don't want to bear much more of the case.

This brought out the statement from Mr. Triffiths that Lewis did play fare on the night in question, and an admission that his money bal nolling to do with \$5000 on deposit. That was separate and put up in packages of \$1000 each and never was touched after it was delivered to Lethgow d. Dulfee for safe keq ing.

'That is an important instite—very important said Judge Nash. Bring your proof and we will hear this matter it open court to-morrow. If this man recilly lost the money he has placed himself in a very serious position swearing to his affidavit.

hrw York Nov 19—The (athoric Vers ha received from its Rote correspond in the text of the rejiy sent by sard into a compression of the rejiy sent by sard into a nectic Cardin (Cibon as follows. It my duty to 1 form you en innece that fields been entered into the the as outsites I now in a Kinghes of I nor forwarded to mightications should be produced in the rules of society to make clear whatever might seem observe or might be interpreted in that series. These modifications are required particularly in the passages of the preface to the rules concerning local as octations, and then the worlds savoring of social is maid communism must be corrected in such a way that they shall only affirm the right conferred by God on min of acquiring property by using legitim its means and respecting the proportion at rights of all others.

his own a bimet. Canada wants to be represented on the general executive board, the Scuta has a like desire and a movement is on foot looking to the selection of some representative business men. It is reported that a proposition looking to the formation of an entirely new constitution has been made to the general assembly and is being considered by the proper committee, as there is a strong feeling in favor of a radical revision of the present constitution. There is like doubt that the new constitution. is lit le doubt that the new constitution will have in my supporters. Barry has ready another of his attacks on Powderly a administration and it is said that he will keep up his denunciation in the form of long articles or several days to come.

This morning a session was devoted to the report of the committee on appeals and givenances.

I ast week feeroge I Detweiler editor of a Chicago labor journal returned home from Indianapolis and wrote an editorial which appeared Saturday. It was an attack on the character and position of the general assembly. It stated that Powderly is the raining mind in a convention packed in the interest of the ceneral Muster Workman and that Powderly and Litchman were afraid of publicity and therefore both of them were ready to make peace and promptly did so at the lirst chance.

ready to make peace and promptly did so at the lirst chance.

Lowderly took the floor this afternoon and made a vigorous demail and denunciation of the whole matter. His speech was pointed and emphatic, and was greeted with frequent and hearty applause.

A resolution was introduced and referred to a committee to the effect that whenever a member of the order shall, through the public press make accusations or misdemeanor against members and officials of the order, without having made and sustained these accusations before the proper court of the order, he tays himself open to immediate expulsion by the general executive board without trial expulsion by the general executive board without trial W. T. Leads master workman of the miners' assembly and many other delegates, denied and denounced, while none defended the author in his criticisms.

### THE MAN WHO WRECKED HIS PARTY. Cleveland Did it With His Little Free Trade Message

Mr Cleveland had no more right to publish such a message than a minister called to a Christian pulpit would have to preach additery. To the democratic party which had elected him it was betrayal. To the great body of protection democrats it was political treachery, extreme and unprecedented. It was an attempt at what to them was a revolution. After the disaster of 1880 the democracy under the gradance of Samuel J Rainfall and the protectionists, reafirmed the unbroken and almost unas sai ed, democratic peace principle of no internal revenue and a protective tariff. And when it came to the reduction of the surplus it was upon the internal revenue that the president's hands should have been laid first But suddenly came. Mr Cleveland's proposi ate the protection sentiment through the crishing of Mr Randail, be forced his own pletform and renomination on the demo cratic party in spite of the fact that the pro-tectionists had borne the brunt of the cam-pungn in which he was elected, and that he bad accepted the platform in which the Jeffersonian tradition was so emphasized that no schoolboy could influenderstand it Besides being a political blunder, it was also a rolitical crime.

A Missing Man

There seems of late to be some doubt as to the whereabouts of I out I and who so suddenly disappeared from his ranch in Pae by I by, Oregon somethin, over one year ago, says the Klamath county Mar. It was generally supposed that be had gone on a visit to hi old home as a report had been circulated to that effect. Both search and inquiry have been made along the route of travel but no trace of him has been found. Hence the question, where is he? Mr. Land had quite an estate in this county. He claimed to have had a brother doing business in Sacramento many of his old friends think he has been foully dealt with he has been foully dealt with

# GOFI SANS HE IS PLECTED

To for Nov. 16—In the commons this evening Madden solition general for Ireland in the interior of Billiour who is ill browned in the billion of Billiour who is ill browned in the billion of Ireland in the purchase by tennits of fund in Ireland by dining to 300 000 to the innount applicable under the Ashlourne act. He declared the Ashlourne act was a great success. There has been 14 338 who signed agreen ents for the purchase of hard of which 8612 com bleto Only two courses were opt to the poverning interior was to dendon the scheme of hard jurchase and the other te extend the left the fact that the act had been con pulgons success justified the government's getting, to enlarge its oper time of positions in Gladstone moved the following amendment to the government's declaring the operations. And He Will See That the Will of the Peo Whereis W Va Nov 19—6ch Goff retable cure and late for govern or telegraphs the state committee that his majority in Melbowell country is 174 and in Wyoming 122 (cm Goff ilso belegraphs to 1-titor Hart of the Int House stand by the late of the Int House stand by the Int House stan con pittons succes justified the government secking to enlarge its oper time.

When, Mishlen had hinshed Gladstone moved the following amendment to the government proposal. That in her of voting £5.000.000 it i explaint in view of the lumentable sufferings arising from recent evictions to extend the lun linw of 1887 so as to empower courts to reluce or cancel arre its of rents found to be excessive. He complained that the government had broken its piedgl to the house. After obtaining the whole chimmend of the time at the disposit of the prembers under an engagement that no controly-risal meisures should, se introduced here was a bill of the first importance challenging discussion. It was submitted with a threat that it would be just forward daily until settled. His pretest was equally against the mode of presenting the bill said the method in which the discussion had been proposed. His motion did not strike at the Ashbourne act nor would it necessarily stop its operation. He objected to it because of the amount did not strike at the Ashbourne act nor would in maces the strike stome the view of partial near for several years [Cheers.] That was not a courst which could be allowed. The opposition was not invenished to the value of land purchash. He did not desire to ree land lords; or any other class, removed in a body. He wasted to see them not less, but a great deally one Irish than they were, and to see them is subsents instead of absentees from Irelaph. The principle of previous land acts was totally different from the Ashbourne act under which £5.000,000 were obtained apparently as a precedent for a further five millions thus drawing the house by slow degrees, into a system from which there was no peccape in the Ashbourne act as event he military of the military of the Ashbourne act as event he military of the Ashbourne act as event he military of

Leander Holmes of Portland is in the city for a short stry. He has been to Washing ton city to see all of to one cakes he has before the supreme count of the United States. He is undecided whether or not he will run up to Portland before returning East. He has a son and daughter living in this city. M. B. Rankin, F. M. Warren and Dr. G. W. Cooper all of Portland, are in the city for a short stay.

Mrs. Louise Humphrey Smith, known in all the principal towns of Oregon and Washington territory from her dramatic readings, is planning to spend a week in Portland during the holidays. Mrs. Smith's time here is now almost completely taken up by her large cless of pupils to whom she is teaching. Del Sart's system of expression. Every few weeks however she finds time to give a dramatic reading before some local club. Oregonians visiting here have often asked after seeing how profitable the raisin crop is why southern Oregon does not attempt to cure and pack raisins. Certain parts at least the Rogue river valley seem well adapted for this industry. The raisin crop of California is not as large this year, as was expected in the early part of the season. It was thought that it would amount to over a milhon box es. This however is 100 000 boxes more than the crop last year. A box contains 20 pounds. Not more than one-eighth of the cred goes east. The principal markets are in New York and Boston. Lately, however, small con agained to the proposition of Fireworks.

Death From an Explosion of Firewarm Valleys Nov 19—On the night of the republican barnde, a week ago Saturday night, the brewerks wagon exploded and severely burned kiward Philips and his son Edde John batter, James Williams, George Hil dreth I hillip Wed and others The truck was almost completely burned. Serious re was almost completely burned. Serious results were not anticipated, but yesterday the son of Edward Phillips died Wilhams bailor and Hildreth are still in bed, but improving

hands of the state and making the state the immediate landlurd, without proper guarantees. He (6 landstone) had always objected to the A-abourne act as giving the initiative of purchive to the landlords, whom he considered so ond as the peasants ought to have the militure. It was certain that this bill would give the landlords a leverage to bring up reads which would en ble only a handful of tenants to acquire holdings. Certainly it would assist the government in their land purchise scheme but under what madequate and precarious security for repayment of advances. The government was not justified in relying upon the tonants will to pay after the recent declaration of Lord Sinsbury that a mijority of three midlion in Ireliand were bent upon putting down the mindrity of two million, in order to get at and rille their pockets. If the government had the tenants' welfare carassity at heart if instead of supporting the landlords they meant to relieve the distressed tenants they would deal with arrears instead of pressing a dangerous measure which provided machinery for preventing a reduction of rents and which alkorded facil itself or augmenting rents and militudents. Peter the Poet in the klamath we thus de cribes a grand ball at Keno. The dance at keno haif on Thursday night gave un bounded sutisfaction all around. While it had no jarring element it was supplied with two toxplied fiddlers who fore great enunks of harmony out of the catgur. Felted by these glorious chunks the dancers hurried around the floor and wished for wings with which to get there. Ell.

Goschen's reply

Goschen chancellor of the exchequer demed that the povernment was pledged not to
introduce controversal measures during the
winter session 'fladstone's tatement that
if the government had asked just sufficient
to keep the act in operation until next ses
sion it would have been granted was incorrect. The immediate extension of the Ashbourne act was a necessity. It was desired
by tenants. The government was prepared
to deal with arrears in due course of time

A Negro Lynched

New Oblives Nov 19—The Praymes 1 too City special says. A week ago William 1 tool colored came here and aurren dered himself to the sheriff stating that in self-defense he had shot and killed Capt Robert Johnson one of the most prominent citzens of the county as him home near bataria. This morning a large number of Johnson's friends went to the jail and took Arnold, saying they intended to avenge the death of a friend and nogbor. Since their departure nothing has been heard from them, but it is reasonably certain that Arnold has been lynched.

DYEING AND REDYEING FURS

A Prominent Furr or Gives Eis V ows on Ti Subjecto a Reporter

They dye senishin quite black now said a lady yesterday in a traction 13-11 adminished at a cloud of that rich and expensions. ve to derial worn by a friend Yes' and the wearer of the close ac

Yes 's and the wearer of the closk at mired. I do not take the recors o well as the o'd seal brown but a. I was madde to get any of that color to much naved coak. I was obliged to get a new one. A reporter who overheard the conversation wondered why the chang in the olor o sealykins had been made and applied to not programent furrier for information on the subject.

"The business of dying sealskins is kept a secret;" he said. "The bastiess and had a print to equal them in this country. They have been making filtern darker of licks pears, and many of the old 'seal brown furs have been redyed. They do this in this country and the fur tooks very nice and has a more glossy an pearance. I do not think the redyed fur will retain its appearance so well as the old seal brown did, but it looks well and many who have fur a redyed imagine they have who have fura re-dyed imagine they have new offer

new offer.

The, make seal plush now so that it can hardly a told from sealskin. I have never seen and, sead the furrier, which i could not distinguish at a plance across the street. I have heard of plush which could not be told from turn put I have not seen any of it." Purchase your tickets and reserve your sleeping car accommodation at No 2 Washington street, office Northern Pacific Rail-

Briof Interviews With Several City 05 c als and an Eastern Man

The tramp question' again forces itself upon the attention of the public. With the approach of winter this class of Luman drift wood becomes more not alous especially in the larger cities and it may be added

more of a still nace too.

As the scripture, says, the poor are niw 138 with to tramps.

They are alway, with us, and the cities find this out much to their sorrow. With the approach of cold weather tramps of all kin la, both professional and the thrench lack of employment, flock into the

lifere in Portland a large in lax of this chast of propie is already a officeable. I such day brings a larger number of offenders charged with the crime of variously into the

charrest with the crime of various, into the toils of the police court, and each day sends a larger rander to the count visit a larger rander to the count visit and the total they are a ruisance at will admit and that they are a ruisance and will admit and that the nuisance can be largely sungressed nearly believe with the view of a certaining the drift of the sentiment on this que then an Ourgovian reporter applied to those who by virtue of their otheral positionare supposed to know not about the subject.

The first man asked for an openion on the all jeet was the county judge. If John Cut.

It is first man asked for an openion on the all pact was the country judge. If John Cut. In the state was the country judge. If John Cut. It is may opinion and Judge Cuthin that either the state law should be repeated and the barden be thrown upon the city of city. The law should be so amended as to require that in offense of vigrine, con united within the city and should be rimshed by the city at thortless. As the law now stands a state car is made out of a city offense, and when the offense is sentenced to imprison ment he is sent to the dountry jud and boarded at the country occupits. What can the country do with them? We have no place where we can put them to work and no efficient to whether the put is the city a place to do this for it his work that acquires to be done and the necessary officer to watch the men when at work. The shortifican turn the vigrs in the country jud over to the city au thortises and make them work. He then red from Hills cole defining vigrancy and the punishment thereof. Section 1999. The shortif shall have any thorts in his discretion to cause and vagrant to be worked upon the public streets of the town or city in which the country jud is situated after hist obtaining authory from said form or city to do so."

Section 1961 — In the case provided for in section 1989 (section 3 of this act) suit sher if shall have authority to leave aid vagrant in change of the marshal police or other proper cits ofheer during the hours he is being so worked for the purpose of more fully carrying out the objects of this law."

Betton 1962 (sections of this act) suit sher if shall have authority to leave aid vagrant in change of the marshal police or other proper cits ofheer during the hours he is being so worked for the purpose of more fully carrying out the objects of this law."

Betton 1962 (action continued the during vagrant while employed at hard labor as provided in this act.)

chain sentrely tastened to the teg of said vagrant while employed at hard labor as provided in this act.

Judge Catilin continued. The city should have all the facilities for giving vags employ ment for such effectives come properly with in the police authorities of the city. The law provides for furnishing vagrants with employ ment and also authorizes the sheriff to turn the county vagrants over into the bands of the city, but what can we do if the city refuses to take them?

The process of making state cases out of vagrancy now costs the county about \$15 per man. There are constable fees is should the offender be arranged in a justice's court; district attorney fees and other fees making an aggregate of \$15. Board for them costs the county \$5 per week for each man. The city has its paid officers and rainrack city astorner and running all vagrants through the police court as only cases would not cost the city any more. Our streets are not in the best of shaps and it is my opinion that the professional yag should be just to work improving our thorough fares.

Sheriff Panambra Kelly was cit the opinion that vistockade should be full where the men could be put at wors pounding tock.

ion that istockide should be built where the men could be put at wors pounding took. I have consider the pulse of the puls

question was met in the Last

In our Rastern clites' said be we have
an insutution for every ulass of reople. We
have our borntals, our charitable societies
our homes for aged men, homes for aged
women poor houses and poor farms reform
schools for incorrigitle youth stone ple for
county prisoners and charity institutions
in no houses principles. It used to be
that the county prisoners were not required
to work and the consequence was that our
county pid was over crowded principally
with various and other petty offunders
Generally a small offense would be committed as a pretext for getting into just. The
silen her would then go to the county pall
and board at the compy sixpuse. This
we just what they wanted—free board no
work and the company of others of their
own ilk.

work and the company of others of their own ilk.

We put a stop to this however and adojted the stone pile is an accessory to 1rt on reform. The result was that we had by far a sinciller number of prisoners, they cirred their own board and were not supported by the taxpayers and when they once were related they had no particular deare to return. We have also an institution called the I mendly inn where board and looding may be obtained for sawing wood. A clean bed and good whole-some meals are given in exchange for saming so much wood. A vag can go there and stay just as long as he hase and just as short a time as he likes. All that is required is that he saw a cert on amount of wood for each meal and each night's lodging. An honest vag (or one who is made one through an imfortunate chain of circumstances, inability to obtain work etc.) can easily carn his hying there and in the meantime ook about for work elsewhere.

ior work elsawhere to roto and the varieties and he will get respectable for work wit make him so this institution has become elf sustaining the criticus given it their support by buting their wood there. The result of this Triendly inn mid the stone pile run in connection with the county and make it imposible for a vag or a professional azy lout to find e injoin the tax paying community. Whirever, he loss he is obliged to pay his way. I may also add that the lather crowd of vagrants that used to infest or reity have war I may also add that the large croads of vagrants that used to infest or ricity have et it, title to some healthier than and we no longer have the annotance we used to have

BILLS TO BE INTRODUCED The Aipine Club Preparing Bills fo Door Kill

State Mining Bureau The Oregon Alpine Club is making itself very useful to the people of this state by the work it is now doing in bringing before the public two very important needs. No one can underrate the importance of establishing a state mining bureau, and the necessity of taking some measure to prevent the promiserous killing of deer Both are pressing state needs—one to upbuild and servetop her resources, and the other to put a ban upon a practice that is fast depopulating the game of which she is so justify proof. The Oregon Alpine Glub has taken bold of this swork in a manner that will beat-results?

PORTLAND'S CABLE BALLWAY Work Will Begin as Soon as the Pal Papers are

I B Benefits are ident of the Pacific holling Mills and Henry i Soft the gress dent and treasurer of the Lach Iron Works San I rancisco have been in the city a few days to pass final judgment on the practica bility of building the cable r liway. Their

days to pass hall judgment on the practical bilty of building the cable of liwar. Their verifict has been entirely saits percent to the projectors of the enterprise force; to the projectors of the enterprise force; the line and expressed the opinion that the railway when completed will pay from the start.

The object of their visit was to investigate and make a report to the boundariers of the cable company. It is learned hunthentically that the report will be in all respects a favorable one and will lead to the closing on the agreement and the signing of the linal papers as soon as they return to S. in Prancisco.

As soon as the papers are strined work will be located at the corner of lifecenth and Murket street. Work on the railway will not begin until apring.

Messers Benefile; and Scott represent two of the largest munificationing institutions on the coast, and their opinion of the practical bilty of study in enterprises is timost across bilty of study in enterprises is timost across the William of cable road interest. The

bility of such an enterprize is thurst avious mous with its success.

G. W. Fynch of cable road interest returned to san Francisco everland yesterday effection accompanied by Vr. H. I. Scott of the Union Iron works of that city. Mr. Lynch will return in about a week in juristance of his work in counecaon with the road. Mr. Benchley, goes to Seattle for a few days.

HE LOOKS LIKE GENERAL HARRISON The Marked Resemblance Between Er Congress man George and the President Elect

The facial resemblance between President elect Harrison and ex Congressman M (
George of this city is very marked. The
only difference is in thost high. Mr. George
being tall broad chested and stalwart and unchined to be portly, while i.e.n Harrison is said to be heavy set and input medium hight. Both have high foreheads and hight complexions, both are full featured and both have brownish red bearis and mustaches worn in the same fashion. In the eyes the expression is almost similar. In some of the lithographs received here Gen form of the intographs received here Gen Harrit on is pictured with b cyes partly closed is if the camera was top ed at the very moment be was strain in his cycle under the light Mr George's cyes are bright large and wideawake. If Mr George ever revisits Washington during the next president shicumbency he will hive to take some precaution against the office seekers.

From a copy of the Hong Kong Telegraph just received it is learned that the storm was a dreadful one and that many western the (hims seas met with wor e fortune than the kitt).

The United Shates to vitte Juniata received such injuries that she was detained ten days at Singapore for repairs. On the second day of the storm Commander Whee was thrown to the deck by a sea and sustained injuries to his face beside breaking him uose. The ship sustained considerable injury to her rigging, sails, wood and from work upd lost four boats.

The English steamer Kildare was lost in the storm. Many of her crew were washed overboard or injured before received. Following is an extract from the capitan's report.

About 7 A.M. whilst attempting to secure the rudder with chains the boat was

'About 7 A M whitst attempting to secure the ruider with chains the boat was swamped and two seamen were washed overboard of a sea which entere's buried the ship fore-and aft. The chief mate and one seamen had their legs broken about the same time. The third mate who had taken refuge in the main rigging had his ciothees blown off by the force of the gale and the pelting of the spray flayed the skin entirely from his back. The chip suffered terribly and lost the whole of her eight boats; the wheelbooks was shore in and a great deal of wreckage caused on deck by which three other men were injured. Of these, two reached the bridge at 9 A. M. but the mate, who remained lissied to the ruider head and the man with a broken leg did not get forward till about 4 P. M. The gale increased in violence, the kind veering yound from the westward to the south. In trying to secure the ruider, Mr. Creige, the chief officer broken his teg being struck by the sarew of the handgear, which was flying in all directions. While getting a chain runner from No. 3 wirch, the boatswam (Frudder) and two able seamen (Malays) were washed overboard. About this time the vessel shipped a fromendous sea and stoye in the after wheelihouse. About 11 A. M. in trying to secure to 3 shight the hard hat he got antaigted among the wrockage and was drowned.

THE SERVICE

Respect for the paners e of the evice reform has grean more rapidly among the dem rits for ignoral he had two vecks than ever below H in trien as almost.

This was a way he other hand it. will be well is for refine cuts to temetaber that dung the great four years they 100, have professed a good deal of idmiration for the principles of a vil serv a good deal of undernation that they have een so hemefully volaci-

When then Harrison wrote in his letter of accepting. Only the interests of the public service should have been accepting the service of the public services of the public services. be presented a very grave accusation against the administration of Mr (leveland It was grave because it was true
The New York World in its review of the

causes of the recent defeat o its party realls the fact that the democratic war erv in 1884 was. Turn the rescals out! And speaking of the performance of the administration at adds. "It was unquest on ably disheartening to the men is of honest and clean government to perceive that more real rascals were let in than we e turned out The substantially undemed list of scanda ous appointments made by the president or his subordinates-the natural result of the spoils system-stopped the months of the sincere friends of reform

All this is true. Even a democratic paper can afford to tell the truth about the admin istration now But the new administration should not make a sham or farce of civil per vice reform as the Cleveland administration

Wherever inefficient or unworthy men have been put into office the should be re moved. There would be justice too justice both to individuals and to the public service men who have been removed to make 100m for those whose chief or only claim was that of partisanship. But in offices where in cumbents were allowed to serve out their terms and their successors are capable worthy men it would be wrong to make renovals just for the sake of pulting repub the place of denocrats. The to be a change in the whole pe sought not to be a change in the whole per sound of the public service upon every change in the presidential office. The public offices exist for the public and should not be put up as prizes to be long at for at every pre-idential election. The decent way is to let officials who are capable and worthy serve out their terms. Let this he estab thas a general rule and there will be both to politics and to the public During his first year President Clevel ind

did not make many removals. He was strongly pledged to the doctrine that orly the interests of the public service should suggest removals from other. When vacan cies occurred he appointed riembers of his own party of course This was expected system of removals on partisan grounds he surrendered to the spoilsmen of his party and made civil service reform a phrase of expriness and contempt. If there bas bee years past he has been conspicuous as an ex Lyen the country postmasters in di cases where democrats could be had have been put to the sword. Notogrousiv the pubvice in many branches if not in all inches has suffered in con equence of the partison proscription. This is always and necessarily the case when experience for public duty is forced to give way to the f mere partisanchip

We think the new president will make many readjustments throughout the public service but do not think be will allow parti-san clums to se the sole ground of his au-tion. That is we do not think he will remove all democrats whom he may find in office in order that he may put resublicans m nor ought he to be asked to do so. There bught to be a positive gain in this respect during every term of the presidency. The oration of the republican party gives a very folicitiens opportunity o prove that it is the frue party of civil service reform as reforms This party, by abolishing slavery maintaining the Union and emoving out of the way the great cycle that kept the re-lic in an uprear for hilf a century given us a country fit to live in low is to meet the questions of tariff reform answer the expectations of the country and its ascendency will be assued for mother

# 4 WALCOME RUNOR

Now there is a run or that the democrats in congress to stitled that I was a mistake to refuse to idin I new states and perceiving that their obstruction policy cannot be any event much longer presail will take the other course at the coming session of congress and nass the preliminary acts looking to the id secon of Dakota and Walbington and probably Woltana
This would be good sense. We want the

new states and world welcome that admision even by democratic vot a though that party bitherto has prevented their admission solely through the fear that they would bring to the republicans a reinforcement of voting strength that would overpower the combination on which the democracy has so long relied—the Solid South and New York But that combination this wire didn't ma

terialize and it is certain that the retain of of the democratic party to do I ishee to he ter-ritorics when the motive of the refus d was ritories when the motive of the refined was so apparent become a telling argumetin many places against that party. It exposed the section of character and imposes of the party juste as completely as anything else in the whole course fitts better. It is with will abandom that jobe an implied in the mends by hurrying the adam ton of the new stress the action will be something to its credit. But we fear it will not done the habit of opposing the creation of rew rithers stress whose votes it can introduce the latter than the whose votes it can it to true to git it invete rate a b that party

# St. H II

fidence is that it to the factor of for the sense for action. When the care of prohibition is conferred with earlier of it is to a second undertably success and honest in intention but who sace of the proof of the assertion of a principle that it impossible of conferred control of the sent of enforcement. The cause of or permit they imagine is entirely their two and no one can figure with them is friendly to the permit and no one can figure with them is friendly to the permit who will not surface as they define public issue to this definition on the target of prohibition bout in the with

supremacy But the ultra reformers who ery prohibition actually with that all posted ble political evils shall (bile a as the resulted their votes. By some meant reasoning they imagine that tepublican defeat means prohibition victory They have determine kill the republic in virty or make it favoi prohibition. It is rue or ruin but amoment searcful thought will show that it can not rule and will not be able to ruin.

It len York tate there was a well de fined issue between houor interests, as repre ented by Gov Hill and temperance as unbed by R arner Miller the republican can-didate let while this issue was undenta-ble prohibitionists were at work as ac ively as ever determined to ruin because the republicans would not go their full figure, ra New York state and all he party probit Monist-Was there ever anything more absurd and inconsiderate

this movement. It canno se ceed until the nation is entirely changed. Men advocate high license and coal option and are willing to submit this question to the popular vote, but men haunted by a fallecy at last become cranks a d refuse to listen to common near that keep it in antigonism until com mon humanily considers it a nuisance and stands in bitter opposition:instead of bec ing reconciled. In this suicidal way profiwith votes who might perhaps become it friends

### WHAT OREGON OFFERS

It is only necessary for one who resides in Oregon to travel at a distance in any direction to discover that we have here a region of mecomparable beauty and unequaled fer region possesses charm and change of cape unknown to most countries with soil canable of a range und variety of products that makes agriculture an easy task and production a greater certainty than any country on earth can equal, because no other country possesses conditions to produce One of the latest enterprises of THE ORE-

covers was to issue an edition devoted to the Willamette valley, and we unheatatingly say that no equal extent of country on the globe located within the temperate zone, can make a finer showing and turn off by netual commercial statistics on great a mantity and variety of products under the time conditions of temoteness from the world a markets and centers of trade and manufacture No other country thus attuated can show throughout its tength and breadth equal prosperity and a community so well equipped with homes and blessed

This valley is the choicest spot on the Pa cute in many respects. The semi-tropical features of California give that section of the west coast an illusory character and quick soil and varied production go to the world as "hange as holion but the nearer view and more intimate knewledge make one acquainted with and climate, burning hot summers fearful drouths a necessity for irrigition occasional failures and the make success and prosperity a problem that is not east y solved. Without detracting from the merits of any

other portion of the Pacific region however we can claim enough for our own state to place it among the most favored countries on the globe. The climate of Oregon throughout its length and breadth, is All extremes are tempered an alleviated and the equable features extend to all the year. Go to the world and say we have a country where summer s sun is mild production has few vicinsitudes harvests have been unfailing that we from the earliest years that we live in a region that is never invaded by de structive storms and where the general health is not disturbed by positioner that while seemingly remote from the world's markets the ocean gives us cheaper transport than the majority of the United States enjoy that the fruits of the temperate zones gron here in luxuriance and produce here in profusion and perfection, that fields that have been unceasingly cropped for half a century still exceed the harvests of the best lands of the new northwest and that such failures as Dakota knew this year, and prevali somewhere continually, have here been known in Oregon, and the listener wears a look of incredulity. Yet this is all true of the Pacific Northwest as a land for homes and a producing region It seems like fable to other people, and when all thing, are considered we have a right to be heve that Oregon offers greater inducemen a for immigration to day than any known pa t of the continent we inhabit

(altornia, by persistent idvertising and proclaiming the charm of its climate, and the romantic features of fruit production, reciting all the best and omitting the wor t cured a flood of immigration a great part
which last spring equipped for the road

prise and ventures that were as reckless as gambling The reaction came last year and as a tidal wave strands vessels where no fi ture wave can reach them, so these egregious peculations were all landed high and dry and thousands of credulous dones were runned Oregon has never had any boots, and even Portland with all its increasing and assured prosperly that has no fictitions beautiful and assured prosperly that has no fictitions backing or inflation has never known a period of wild excitement and unhightly

It is a remarkable fact that while the projit on fruit growing is equal in Oregon to what is claimed for California, yet lands that are similar to and aljoin orohards that are pay-ing \$900 an acre of initial income above all expenses can be bought for scarce more then one tenth the value placed on fruit lands in La forms. As good fruit lands as can be desired or expected can be bought in this value and the other of the western valleys of Oregon for the estranging from \$10 to \$40 an acre, when Iru thinds that yield no great er mediae in California, are held at \$200 to

\$500 an acre It is not any exaggeration to claim as truth all that is here set forth. The time is come when surreme effort should be made to secure for our state immigration of men with at least moderate means and wh energy and enterprise to take advantage of our possibilities. What works against it a that as yet Oregon products do not figure extensively. But many orchards are plan ed exensively but many orchards are planed that will seen commence to produce and when the world sees and knows by actual satisfics of trade that we have such fruit as its and can equal California in profitable project on the risks it will be that population will increase and lands will possess great

What has been said applies especially to proud of Puritanic ancestry, having nothing at the coat valleys—the Willimette Urrp else to be proud of Endieott made a flutter ean figure with them is frically to the person and no one and figure with them is frically to the person who will not acribe as the distance who will not acribe the greater virily shad be invited by marriage. He spent his money the greater virily and posses see the strength of this spaceh was appointed with these enthusiasts they did not nearly the greater virily and posses see the strength of this spaceh was appointed whitney was a rich lawyer of New York did not be strength of this spaceh was appointed whitney was a rich lawyer of New York did not be strength of this spaceh was appointed whitney was a rich lawyer of New York did not be strength of this spaceh was appointed whitney was a rich lawyer of New York did not be strength of this spaceh was appointed whitney was a rich lawyer of New York did not be strength of this spaceh was appointed whitney was a rich lawyer of New York did not be strength of this spaceh was appointed whitney was a rich lawyer of New York did not be strength of this spaceh was appointed whitney was a rich lawyer of New York did not be strength of the strength qui and Rogue river All these offer equal

ducement for settlement. There must be in open to entry or for sale at low prices western valleys are well settled long ago the land is held in comparatively large tracts.
Fastern Oregon is newer, and lands are more moderate means can prosper there at wheat growing and stock raising and many crops do well there. The soil is wonderfully re sponetice. Men who have started there on virgin land that had to be sundued that too in the semi-arid region south of the Column hra, have in a few years become independen What the capacity of that part of the state is for fruit growing has never been fairly tested. On the rivers and in the valleys. where land can be got fruit i grewn in the greatest perfection the grapus pea h \* c c grown there eau if california. On the up lands fruit trees are sometimes which killed. There is a web sustained fruit grow and the state of the balles and they dain success in ordered so the bills as well is in the river bottoms. Listern Oregon is very extensive and offers great opportunities for success. Many think a treeless region is not habitable, but the wonderful depla and fer thity of soil and certainty of yield under suitable methods of farming soon answer that objection Oregon, as a whole offers the greatest inducements for immigration of ople of energy and enterprise
While this is true of the 1/1 runng portion

of our state and the whole Yorth Pacific re gron, there is no section of our country that offers greater inducements for capital to in THE OREGONIAN has shown the vast natural wealth that exists in undeveloped resources There exist here the grandest forests on the globe. The mountain dis-tricts are covered with such forests, and the hills nowes all the wealth that can exist in mines of coul iron copper lead and beds of limestone. Through the different ranges are years of ores containing precious metals, and the time is not distant when the mountain near us will yield dividends in response to piready done Manufacturing must works now in operation and others to be op-erated in Washington territory. In every field of enterprise known to man our state cements that must soon receive

### LOST HIS PILOT

When Daniel Manning resigned from the cabinet February 14 1887. Cleveland jost his pilot Mr Manning a views on the subject of the tariff revision and the finances were as conservative as those of President Arthur and it is noteworth; that President Cieve land a gros-est errors of public policy and personal action did not talle place intil after the departure of Mr Manning Manning, as a veteran journall-t and banker knew the sentiment of New York state he secured the New York delegation for Cleveland at Chicago in 1884 and forced Cleveland a nonunation against bitter opposition Mr Clevel are was modest then and grateful to his creator Manning, who entered the cabinet at a great personal sacrifice, as he was already in the greep of the inerdiously fatal disease that ended his life December 24 1887 Manning did not leave Cleveland until he had put hi administration in fair running order Cleveland continued to drive as Manning di rected him he would have escaped any seri ous blunder and would probably have been re elected but when Manning withdrew Cleveland fell into the bands of Bayard La mar and worst of all Vilus who persuaded him to regard his great office as personal property rather than as a great public trust

From the day of Manning's retirement April 1887 less than two months after Man ning's retirement Cleveland wrote his famous letter to the 41bert 83 date; John Ion monunent association. Then came his other blunders, his Calbon letter his battle flag order, and his swift repudiation. of his pledges to support the cause of civil service reform. All that promised well for Cleveland was accomplished while Minning was his political guide thinker and friend, all that made for Cleveland's rum followed

steadily after Manning retired to private common place man possessed of great ob stinacy, and arrogance of character a kind of nature that is commonly found in men of fightness force and firmness of mind trateful to Manning, whose skill had se cured his original nonunation for governor of New York, and afterwards against bit ter opposition the nomination for president Cleveland had followed his prudent coun seis; but left to himself he began to dire with a heavy drowey hand Andrew Jack son poptiarly believed to be a rash and arbitrary man was able to appreciate the value of able and cool counsellors and his secretaries of state were all men of cautious and conservative temporament like Van Buren and Edward Livingston, but Cleve land the moment he lost Manning, seemed to feel that he could drive as well as Mon ning, and instead of filling Manning's place with a statesman he filled it with Fairchild Manuing s'assistant, who was a respectable banker in a small way, but was never sus pected of superior abilities before he became secretary of the treasury and certainly was not after he succeeded Manning Cleveland in distinction from self reliant men he fretted under the intellectual dominance of a man whom he could not without ingrati-

tude treat with neglect or contempt
It has been said that self made men wor
ship their own creator. So they do except
when they suspect that they are not entirely self made and then they grow jealous of the man whom the public thinks had a hand in man whom the public thinks had a hand in their succes. It is a notable fact that self reliant men like Jick on always have strong cabinets white purely self sufficient men like Cleveland have weak cabinets Washington, John Adams John Quincy Adams Jackson Van Bures Harrison fan coin and Grant all placed strong men at the head of their cabinets and the forst mad the head of their cabinets while Cleveland the most self-sufficient man that eyer sat in the presidential chair had with the exception of Manning to whom his was bound by ties of the strongest political graft. itude a weak cabinet Bayard his secretary of state is a fine look og well bred man who never would have been thought of for United States senator from any state save the seven by nine plantation of Delaware, where blood rather than brains rules in poli ues In the senate Bayard had achieved no great distinction and as the head of the cabinet be proved an interior man diplomatic career has been distinguished by nothing so much as disastions blunders and he has stocked the fore per courts of Europe with American ministers who are odious it who an either as incapables or as bourson to home either as incapables or as bourson Confederates and copperheads. Compared with Seward Fish, Evarts Blatte or Fre. linghtysen, Bayard is a very cheap and in competent secretary of state. Endicott the secretary of war, was a dull, heavy Massa chusetts copperhead of the New Fagland tribe of anstocratic 'sliver tops' who are else to be proud of Endrectt made a flatter ing speech about Cleveland in 1884 and on the strength of this speech was appointed Whitney was a rich lawyer of New York

here he was moorruptible and Cleveland transplanted him to the supreme beach. Piles made an effestive suphomorical speech for Cleveland at Chicago and was rew irder with a place in the cromet. I nder his administration the postoffice department de teriorated in efficiency of service. Dicknoon who succeeded him was mother Western rhetorician who roared himself boarse for Buffalo Bull. Garland came to the cabinet. Suffalo Buil (rarland came to the cabinet from the senate with a good reputation as liwier but he soon became involved in the Pan-kleetric seandal and his added nothing to his tegal reputation since his appoint ment. This cabinet contained but one man efeharacter and takent enough to comman the respect of the country and he exhausted his dying energy is trying to make elevated govern with degent dignits and a nature When Minning to red Circland nounted the law draw is all each and like the law draw is cel e six as The ton and has I hadron it the dhis team and would have tractured ns shall in he could. An intellectually sel client in in would be reconstrounded himself produce by a strong cabinet but Cleye and, as a merely sulf suffi tent midered his cobinet is mere clerks proqueties since the death of Manning se has had the benefit of the counsels of a abuset of clerks rather than the counsels of i cabinet of statesmen

Manning was to Cleveland what Bismarck s to day to the voung emperor of German, and when Manning retired Cieveland filled als place with a clerk and took counsel of the devil of the Sould South and all lits angels in shape of Caritish Mills & Co. Had leveland been a statesman seeking a states man to hil Manning s place he would have nan to hit Manning a place he add called an able and upright wir democratlike itandall, to his ide and given him both it can and his contribute

THE SHADON OF THE PMPILE

The campaign of 1540 was eventing the The compagn of 1849 was extended the democracy were hopeful they had norm nated a splendid I nion soldier against an equally gallant but less distinguished soldier they were consident that Hancock would be elected and indeed, he came very rear success. If id he cirried the state of New York, as Ceveland did in 1881 Hancock would have been elected. On the every filesting in 1889, the Designal dimerater. of election in 1880 the Portland democracy were as confident of Hancock's challen a they were the night of Novemb r 5 1489 o Cleveland's victory. The morning after for field a election two inappointed democratic philiteiaus met and the following dialogue. How do you a count for this ex traordinary republican victory? The gloomy answer came back It is the result of one of those strange exhibitions of popu lar meanity that sometimes seems to possess the noblest of nations. The first speaker was was a gallant (onfederate, necus tomed to pose as a warnor in battles whose graves were green before he and reached the age of puberty in thrilling tones prets upon us That was in 1880 In 1834 the shadow of the empire to the midd and magnificent eye of this prophe ic democrat seemed sensibly to lift in the election of (riover Cleveland but how is it to day with Cleveland ejected and Har rivon elected? Does the hadow of the empire 'again begin to rush red on the sight of the Tappertit and Tomit statesmen of the local demounds? A victorious party always breeds braggarts and enthusiasts while a defeated party is always full of glooms prophets, predicting the dicay one reption and death of the state because the opposition are in possession of the hovern

There is something especially ladicrons in 1560 have despaired of the success of our American experiment of self government are those who have exhausted their energies those who have exhauted their chergies trying to de trop if. There is not a nanejof note in the aunals of the republican party that is associated with the pessimistic productions of coming woe and death to the republic. The republican party was defeated of the future rose up from its ranks
it was more hopeful and happy n the victors, and retired to camp shouling. Victory deferred lost! When Lincoln was elected the prothan slavers democracy North and South sang the n.ass for a dying republic and expected to sing it for the dead, but the republican party beat the call to quarters played the pabroch for the onyet and never doubted the issue of the contest Bull Run the Peninsula cam prign Pope's compaign Fredericksburg and Chancellor-ville were terrible de-fects the copperhead democracy headed by Pheips, now minister to England n originated the failure of the American ex dawn played the old air of 1858 deferred not lost! In September 1864 the d mocracy yelled that the war was a failure and all the unlitary music of the sames of the Union onswered Victory deferred not lost. When Blains was besten by a scratch by Cleveland the republican ranks closed up and again the old optimi-tic music of 1856 pealed for the Victory deferred, not lost." But whenever the democracy have been democracy of 1880 and with dramatic ges-ture and accent murmur, the shadow of the empire is upon us"

The proposition to contest the election of Speaker Carlisle on the ground that some of the ballots cast for him had been punched? a ter the manner of postage stamp. for the the harder of sel trating them is not worth a rough edges which might have served to di tragmish them and this sort of thing sould be avoided since it violates the secrety of the ballot and enables those who are witching the progress of an election to keep rvery exact tilly. These things are very objectionable. Nevertheless It is not doubted that a large majority of the voters desired the election of Mr Carlisle and there will be no real contest over the seat

A Roseburk paper manes sarcastic com-ment on the action of the common connect of its town which to prevent pread of shallpox has recommended the churches and schools he closed but has left the hotels and saloons open

The National Republican newspaper is to he revived at Washington The projectors of the scheme claim that the new admin netration will need an organ at the national capital. Ju t what it will not need

In Indiana Hovev (rep.) for governor re-ceived 263 194 votes. Matson (dem.) received 261 003 Hughes (pro ) received 9.76 and Mitro) (labor) received 2661. The republi can plurality was 2191

The prohibition amendment has been teaten in West Virginia by 30 000 to 40 000 votes. The prohibitionists cast for their twin ticket about 1000 votes drawn mainly from the republicans The Tacoma Ledger says that the vote of Pierce county was 4210 instead of 4110 as beretofore published by The Obrocolay There was an error of 100 in the footing

There is a speculative craze in the Argen tine Republic, based chiefly on an inflated paper currency That is, it has no base

### TRANSACTIONS IN EARTH

N B Jones to M I Geralt 4 acres sec. 6 15, 14 Nov 19 \$200 Total \$20 585 2)

As a scenn production it is among the best that has been witnessed for a long time. The harbor seems in the first act is finely set as is also the sinking ship scene in the second. The raft scene in the third act which has been one of the greatest stage effects of late pears in the Eastern productions of the play, was finely put on and admirably managed and so was the revolving scene in the fifth act. It was plantly evident that the play was one which depended more on the me chanical and scene effects and the stage setting for its success than upon the dramatic effects.

# THE SEASON'S WHEAT CROP

Rapid Movements and Good Prices Rave Pre vailed-Unusual Compet tion From the East A reporter called yeste day upon Mr Wm

Sibson president of the Portland Shiping company and asked about the season a "The movement of wheat east of the

sized good prices and on an average I think that farmers obt thed over 50, per bushel clear for the bulk of their crop ' MAR What proportion of the crop has been sold?'

wheat remains unsold is beld for extreme figures and a slow moreogent in shipping may be expected after slips now engaged are loaded. The river between here and the sea owing to the delay in the use of the government appropriations has not been in good shape this season and considerable lighter age has been necessary for almost every ship!

It is there been much wheat shipped over limit this season?

Has there been much wheat shipled over land this season?
Yes much more than usual crused by the damaged crops and consequent shortage in the supply of the central wheat growing states. Colorado and Nebraska millers have bought considerable wheat in the eastern sections especially in the Walla Walla country and some large sales have been reported for Duluth and Minneanoils.

About how much have these buyers taken out.

mountains since harvest has been very rapid There has been a good demand and farmers have been free sellers - The country has re-

What proportion of the crop has been sold?"

I should say that fully minety per cent of the season's wheat product has been sold by the farmers. The bolk of the wheat still held in the interior is genericially owned by shippers and interior merchants.

Have provisions for tonnage kept pace with the needs of shippers?

Les the supply of tonnage has been fair by ample for requirements. Ship-uniters have been asking as high as 55s for from vessels but I do not know of such a rate having been paid. About 51s 31 is the highest rate reported though perhaps in a tew instances more has been paid. There is scarcely any demand for tonnage at present as what wheat remains unsold is held for extreme figures and a slow movement in shipping.

hing that you can do towart such dis vill be duly appreciated. Hoping that ay hear from you at an carly Jate. I re

mas Mechan writes of the theory our the old world that a tree should be pruged when transplanted as experience and reason. It is based idea that leaves prepare sup for food The argument, therefore facis in the of experience. It is said at pruning face and a pruning face and a pruning soften resorted to to save the face of a transplanted tree. When a side of a transplanted tree. When a side of a transplanted tree when a side of a transplanted tree when a side of there is no vital force at work pumping a water and fluids to keep up the life and culation of the tree. Fruporation takes lince and the pilces or sap taken is not resided when a tree is full of vigor it is able to resist evaporation and remain full of sape Conditions favor it whereas the lopped roots and limbs without leaves can not receive water from the sol or the same water from the sol or the same conditions.

ke a spade and cit under so the tree at a direction be lifted when a botto near be to be to be the self is the tree can be moved diplaned out without disturbing head on the troying their head on the liften the self disturbing the self between the control of the self disturbing the self-disturbing the self

I sata work car an agence are win pros-per better than when all the roots are bare and jugged. When these come from a nursery the best vivis o plant in the full and carefully trim the roots. The tops of young trees should be cut down to a fun three feet long and made to branca low. If there is little root there must be ices top

# POULTRY RINTS

The poutry cannot receive too nuclicate w The old fowl and early pullets should so kept that they will begin to supply eggs. Thanksgiving time and the cockerels and those fowls that are not to be kept over winter should be mide let is quickly as pos-sible. It is none too curly to begin to give the young turkeys all the grun they will est each night. It will show in increased weight and those fowls that are not to be kept over she young turkeys an the grain they will enter onch might. It will show an increased weight when they are killed and in better price. Again the night teeding at home forms a habit of roosting near the house where they may be found when wanted by the owner. Chickers should also to aphit to not other coops nights a dicare should be lazen to be across and verme there by the u cold from the coops nights a dicare should be lazen to be across on the roosts or about where they remain talks if they do not get to roosts, fire by saving the best foul to breed from their year tid in prove the flock either in see or in living fulfity as may be most desirable. Do not decode without having some definite of it in o doing. There is nothing worse in join to than what an old poultry manealls pairs breed mongreds that is a cross of three or for pure breeds each radically distinct from the other, and not adapted for crossing. Across of brahms or Piymouth Rock with a legitorn may be well enough in hastening the maturity of the one and increasing the size of the other but when to this cross is added a cross of game and impashan without having any object in view or may knowledge of the promittee of freeding the result is apt to be a great many poor lowls to one good on. Yet this is the style of the flocks of beach in the varies of too many farmers. If then the chickens are allowed to grow as best they can on half allowing of freed during the summer and full it is very sare that warm hen houses and good care and egg producing powders will scarcely be enough to make them promale during the winter. —during

is in thorough order.

It is recent usue of the Elmira Heland man (one of the standard farm porthals of the United States) of the Cole refer to his 55 tem and the success that has followed where it has been practiced. He shows that he in divided states and thoroughly put in cultivation a piece of hard-pun hillside of the most man practicable character. Before doing this he had rented it on shares to a man who had plowed deep and manureit wed and only got thrifty bushels of potatoes te the street. Then he put in operations a mathed that he had derived in his own mind, digrand latteral with analytic beauting would, he of the greatest value, but there are other munified distributions a mathed that he had distributed by the mind, one had been mind, digrand latteral than the had peak to make proceeding the standard latteral trust value, but there are other munified distributed to the parameter of outside appearance.

Says Henry Schnell or Rurel World: In the had office the practice of outside and connecting them with overflow distributions and the practice of outside and connecting them with overflow distributions and the practice of outside and connecting them with overflow distributions and the practice of outside and connecting them with overflow distributions and the building where they are compared to be builded and connecting them with overflow and the building where they are compared to the first one repeating this a few interes, draw its entour man mind the parameter of the practice from the three side of the man mind the parameter of the practice of the man of the parameters of the parameters of the practice of the street of the street

as possible at the bottom to not as reservoirs to hold water. The effect was that the rains were absorbed and carried, off, leaving the bottom of the main ditches full of water. The surface he had thereignly subsculed, taking out all rock and foreign substance Lee surrace he had thorologily subscried, taking out all rock and foreign substance save the small gravel. When he had thus done he manured again not very heavily, and had the astonishing visid of 1200 bushels of potatoes to the acre—where before he had 20 bushels.

from the atmosphere and spickange it from impervous caps to a rin and productive model of great d pth.

For yreparing land for orchard work or tree planting or for planting out small fruit no doubt uch preparation as is referred to will prove of management in portance for mill the morrow a deep criting and tree-

following timely suggestions and new ideas Through almost the entire country a mod erate flow of hone; is obtained throughtunes months low inside for bulk of this crop which is oblained mostly from golden rod and aster which abound in such places. Phis fall flowering is very accessary for the well being of the bees, it comes at such a line as to stimulate brood rearing when most needed. A fall flow always I ice, sho bees in this best possible condition for wintering. Without such a fail flow I houre it is impossible to have been proper condition to go into the winter without feeding. Autumn honer is not first class marketable he evolution experience in whitering bees on it.

est cone wance the farmer can get for putto the health of the cows fed on it only civen farmers reported a diagonally and only thenry two said they did not see any nod results and quality of the null and the end tage is not nearly as good there as here. For line, is more civily dige ted as to the old it could be not nearly in the could be nearly in the nearly interest in the nearly in the nearly interest.

# BUN DRYING PRUIT

A correspondent of the Country frentleman writes from the formation he area and cures peaches in the sun. He say should all evip orations are abundened and he rays of the sun are depended on and answer as good a other, and not adapted for crossing. A cross of brahma or Ply mouth Rock with a leghorn may be well enough in hastening the interpretation of the other but when to this cross is added a trous of game and langshan without having any object to view or any knowies go of the principles of breeding the result is apt to be agrent many poor lowls to one good on the variety of the others are allowed to grow as best they can on half allowence of feed during the summer and fall its very sare that warm hen bouses and good care and erginoducing powders will scarcely be enough to make them prontal educing the winter —A cross them prontal educing the winter in the control of the New Agricultur.

palatable but when bleached it is for behind the fruit defied by the above and in the sunshine in healthfulness. The pure food agitation should be retended to the evaporated fruit production and a crusade started against bleaching evaporated fruit with sulphine, if successful in doing away with the practiced would be a great bleasing to consumers of evaporated fruit and eventually would increase the consumption of the death of the transportation. of the dried fruit production

### DEPTH OF GOOD SOIL

Opinions of firmers differ though not more widely than the field on which they tre based as to the depth that soil may be profitably cultivated. In the best soils plant food is found deeper than the plow can ever go This however is mainly mineral Vegego This however is mainly nitter it vege-table matters collect mar the surface. If there are deep as they sometimes are, the lower portions are usually flied with stagnant water bome settlers on binch much soft in the West thought they had accured land of mexhanguishe forbits a maily because it is black to a great depth. They found after a while that however deep their much beds only the part that robably needed. Wood ashes are nearly (ways beneficial to mink lands as the cities

### A DEEFUL DISPLAY

The coming Puris exposition will afford tunity to place simples of their products be fere the world. Paris is the heart of civili zulion and what is shown there will be seen by all the world. We are beginning to pro of an the word we are beginning to produce well, and need notional that our dried fraits will command attention if the world can see them. Western Oregon has such pic commence or a fruit producing region and the excellence of its fruits is becoming so well established that fruit growing must rapidly well established that fruit growing must rap-idly assume proportions great enough to make the question of a market for them im-portant. If we can commisse a compete in all northes of our products can be placed be-fore the world at reasonable prices, then we can command a market wherever choice goods are appreciated. The suggestion made in the letter to be Plummer from the department of agriculture is worthy of atten-tion and producers should make the contri-bitions asked for, and see that all produces tion and producers should make the contributions asked for, and see that all products of orchards and gardens are fully represented. The world should hear from Oregon, at domprehend that such a state exists and that it produces fruits of the finest character. A lopportunities for making our products known at great display of the world's products should be improved, and this one at Faris will be of first importance. Oregon should be seen there to as good advantage as pressible.

Some time ago a New York dairy man tried to tell the profit on his but mess by testing the yield of five of his best cows and five of the poorest. The five best cows realized him \$23 11 clear profit and the five poorest backed \$7 06 of paying for their cost of keeping which was \$35 per cow. Of course he did not keep the poor cows longer. The modern distribution figures on a different base. I of the five on a different base field to keep a cow. That has been the accepted ratio for half a century. If it is these times an acre of corn made into enslage will keep a cow for a year or longer and better than size can be fed on two acres of pastine and two more of meadow hay. Under this method of durying the best cows will vised or earn a profit of \$30 onch. Another view to take is that if the four neces are put into corn and the corn fed to cows it will create \$240 worth of dury products. Modern methods and use of ensinge is believed at the cast to lessen the cost of making butter by nearly half. It is better butter at less cost. If this is true. the poorest. The five best cons realized him is better butter at less cost. If this is true it is time that Oregon dairymen were in the

I am inclined to think that it is belter to keep a potato at so low a temperature trough the winter and spring that there will be no striting of sprouts before planting and let the growth of sprouts be wholly an underground production. It is a pretty into piece of work to handle a potato with spraifs upon it and get it covered without injury to these little had sprouts. If injured it might be beck to plato and then there is a growth of often four sprouts from this eye, instead of one strong one and we get a bunch of stalks where we only want one strong one. Where juitloss are machine. attong one. Where jobiloes are machine, planted as they now are by the thousands of acres, a sprouted potato is out of the question and there is no resson why we should except the a small way, bailed plant our potatoes any more than we should hand plant our corn or broadcast our wheat. Yilio additional and brockman

# DRIED FRUIT ABSOCIATION

In October there aus an organization ef fee ed of per one interested in dried fruit, under the name of the Dried Fruit Associa tion. A circular was issued instructing holders of dried fruits of a choice grade as to the ers of dried fruits of a choice grade as to the state of the market. If this as occation succeeds in uniting those who dry or even prate fruits this market can be controlled. The circular complians that fruit's too scattered and in too many hands and as a consequence does not command a fair price bales of green fruit are made in bastern cities by auction and fair prices are secured because those auctions represent the supply (thiorina offers the world Concentration and soul organization aumong Oregon fruit growers will secure the same results and instruction for the fair prices. st re fair prices

A FORTUNATE DAIRYMAN W D Hoard, editor and proprietor of Hourd's Dairyman published at Fort Atkin son Wisconsin is a veteran dairyman, and makes a very excellent dairs journal prob-ally the hest extant. Mr. Hoard was recently atty the hest extant. Mr. Hoard was recently promoted by the people of Wisconsin, who elected him their governor at the late election. If he makes as good an out of it serving us governor as he does making a dairy journal his constituents won't need to complide. It is not often that a man with such practical aspirations gots up in the world quite as remarkably as Mr. Hoard.

# KICKENG COWS

An Ohio man answers an inquiry as to how a low can be cured of kickings, thus, Take a sureingle of sufficient length to go around the cow just in front of the hag and hirs draw it gently but firmly. You can then sit down and milk quietly. After repeating this a few times, draw the stroingle highly but, if she persists in kroking, draw it ughtly. In time she will give up the contest.

berries, scarcely worth picking, while the others were as fine as I ever saw. The dividing into between the two muchings was on four rows of Windsor chief, and from the two muleted in time I got 80 to 100 quarts per row while the others dud not have say boxes to the row. I had others, among them Capt Jack Manche-ter, Cumberland, viz on both sides, with the same result, while crescent seedling came through with a fair crop, but the plants were not near so thrifty. I had a similar experience the year before bu. did not know the cruse nutting fer thus second time, and I shall never attempt to grow betries without winter protection.

### CHRI. LEAD IN PRACE

In planting fruit trees it is well to know what faults are charged ag nust each viriety and which are the nio t likely to succeed Peaches curl the leaf often and the varieties that curl v over should be not led. Nursery men and crehardists was the late Constord. ends and creatings at the fite criss of and that appeared to be the rase lest spring when they curied so that they did not hear. The crity Crawford curied very little and bone very will. As there are plenty of virieties it is as at 1 to as out the ones that constitute his little possible by precautions taken at the right time to as out the best ways to be even only the best varieties.

A filly frating the extreme su cell fibility of milk to odors. Henry Stewart, relates the following. "I have detected the odor of lobacco stroke in butter churnel from the c.e. in subjected to the odors of pipes so oked." ce in Subjected to the olders of pipes an oked in a room adjoining a dairy and by the min while he was at week. An instance which shows this strict which shows this strict which so faith and ce in once happened in my darry. A shirt keet into the dairy through the drain and ate the cream. When detected he was thiven out and shot as he emerged from the drain. The everpowering odor tainted everything in the dry—milk ere in butter not packed and some packed in tuby. Everything had to be destroyed. The butter was was in its into sorp.

### DANAS SARDONIO PARALIBLE

If there is another occasion in the history Jumped on 'President Graver Cleveland at is not now called to mind. The Sun scap tion for the following, which makes merry reading as the leader of the editorial page of the issue of November 12 is "belect Readings

The entire layer of adipose tissue beneath the skin and elsewhere satis as a protection to the animal warmth. Being to a great ex-tent a non-conductor it is a kind of natural tent a non-conductor it is a since of membershalled, which prevents the dissipation of the heat of the internal organs and thus serves to maintain their temperature. An abundant layer of adipose ussue is second.

Inmediately after the inauguration of M-Lincoln March 4 1801 Mr Buchanan retried to his home at Lincolter Pa where the passed the remainder of his life taking no part in public aftars—The American (y clopedia, Vol III) page 535.

The rhythm of evolution and dissolution conducting test!

The rhithm of evolution and dissolution completing itself during short periods in small aggregates, and in the vast aggregates distributed through space completing itself in periods which are immessivable by human thought is as far as we can see universal and eternal such alternating phase of the process predomination now in this region of space and given in that as local conditions determine—It of an enert typic petal fol 3 II page to the internal part in public affairs—

Mr. Filmore afterward resided in Buffalo talling no prominent part in public affairs—The Invencen Cyclopedia I of III, page 188.

Persons who have an unusual tendency to fat should combine with other executes running jumping or the spring board and movements which shake the body. These favor the absorption of unnecessary adopted tissue, especially in the covering of the abdominal organs—The Air via Upla padia Vol IIII page 355.

On March 4 1855, Montoe retried from office and returned to his residence of 0 to Hill in London counts Virgium. He was chosen a justice of the page; and sat in the county count—Insertean Cyclopatia, Lo XI. on March 4 1855, Monroe related from office and returned to his residence of Oth Hill in Loudon county Virginia. He was chosen a justic of the peace and sat in the county count—Immediately on the expiration of his face. In mediately on the expiration of his face.

county court—Imerican Cyclogater, 10 XI page 753.

Innuclintely on the expiration of bis term of office John Adams lett Washington with out even stopping to be present at the firm of office John Adams lett Washington with out even stopping to be present at the firm is sense of person of wrong, probably thinking that he had been defined by false professions as to Jefferson's views on the presidential chair. Lortinately for Adams, his thrifty habits sustained by the "economical and managing talents of his wife, but ontabled him to add to the sivings from his profession before entering public his eaving from his profession before entering public his eaving from his arrest entering public his eaving from his arrest entering public his eaving from his arrest entering by of decent property. All consolitions domestic or otherwise at Mr Adams a command were fully needed Never did a stateman sink more suddenly at a time when his powers of action and in chuation for it seelined wholly unimpaired from a leading position to mere absolute points all insignificance. His grandson tells as that while the letters addressed to him in the power pair to March 1 1801 may be converted. year prior to March 1 1801 may be counted by Housands those of the max I can scarcely number a hundred while he wrote even fewer than he received. Nor was mere neglect the worst of it. He sank londed with the gibes the sneers the executions even of both political parties that which the nution was divided. A large portion of the most active leaders of the federal party were disposed to hold Adams personally answerable both for the breach in their ranks and for their subsequent. Overthrow—The A mercan (yell

the breach in their ranks and for their subsequent overthrow—The Anencan (yeld pectal fol I page 33.

In the United States of American there has never been a consorship of the press—The interior Cyclopedia fol IV, page 192.

Much uniconsary anxiety is sometime; felt with regard to the possibility of persons supposed to be dead, being buried while resily living. The premature burnel of a living person must be in a happen at all the result of thexeusable haste or carelessness and is in the highest degree improbable when even the ordinary precautions are taken. A proper examination of the body by a competent medical man in doubtfut cases would render with a misinke almost impossible—The Avernous Cyclopedia Vol III page 4.4.

ETYPT AND ITS DANGER

The Low Mile Brings Alarm and Dismay to the Popple. Has One of Its Tributaries Boon Dammed? "Bir

Samuel Baker and Henry M Stanley Prove
That the Volume of Water M ght Easily be Diverted

Rew York Hera d Sir Samuel Baker famous for his personal explorations of ligs pt and the Soudan has some extraordinary ideas regarding figure and the Nile

The pre ent low Nue he claims is not due to lack of run in the interior. Nor is it a temporary evil. He is certain that the river can be deflected by natives in such a way as to leave boyst completely without those bile floods which change it from a descrit to i garden. Lurthermore he proves that the possibility of thus starring out I'sylt his long been known to interior tribes and dwells with unple out grimness on the fixitie hatred for ut believes, which would make it seem to the Mihdi ollowers a godly work it starve million of people and force the embration of the elle t historic

at deficited without d first rad freed to an castern instead of northwe tern course -toward the field sea instead of toward Egypt This would be an engineering work well within native capability "" lean yokinyely stite than this plan is familie "" I do not usert that the actual cause of the present low life is a deflection of their ver but I think it highly probable and distinctly possible. If I were investigated

As bad luck will have it the Athara river Red sea. The river is, moreover known to be also utely his from March to Tane and Baker and others agree that a low dam, easily onstructed in the dry stream hed would suffler to permanently throw the whole of this most important but tributery into the low Red Sea desert where it would be absorbed by the dry desert sand or eventually find an earl into the Red Sea affect. unity into an exit into the ited sea itself. At any rate no portion could find its way back to the Nie aram, and Egypt would lose not only this v.c.t yolunk of water without which there can be no high Nile, i nt niso all or manify all the deposit of terisle mind which at each high Nile covers the country with a costing of the inchest manure.

### FORETOLD IN JEWISH LEGISLES

proof that this possibility was known in biblical days by Samuel Baker writes there are references in Freshiel to an interference with the river which in the ambiguous linguage of prophety can hirdly be defined, but they certainly imply that the cobres of the Nile would be interrupted by

This is a current allusion geographicals as the local disturtance is mentioned is between Stein and Ethiopia which would be a suite frence with the Atlara river Again in lack of xxx, 12 is a more straking passage. And I will make the rivers dry and sell the land unto the book of the wich distance.

doubts the possibility of diverting the Nik

ture. Atternal minutely therefore instead of though every foot of the great toward Khartonia. But it is distant (not seventy as M. Rassam writes) I turned along the course and followed every foot of the river to Coveraging about 30 miles. The whole of that course is dead if a along the borthern bank but in higher level upon the south it is higher level upon the south in the interior of the river tear Coveraging. The whole only he necessary to open a channel towar fithis depression forming a flat viley of miners extent named boogalup. It would only he necessary to open a channel towar fithis depression from the Edward river, about twenty miles from Gozen upon and to dism the river it that point which would afford an opportunity for the water to enlarge its course and overflow it leaves to but precisely is the ancient lasks of the great Nie during the high level into a natural depression so also can the waters of the during the season when the dry bed offers a level opportunity.

The Soudan is lost the Soudandse are preparing to march upon Wady Haift, Suaning its shelled, and porce than all there is something out of order in the Nie, which is not controlled by the Chemy upon the Albara.

Is it powered it write?

Its contain that the vice of the North high level in the first gray light of the dawn is to the controlled by the Chemy upon the Albara.

Is it powered it write?

# is it parted it were?

O her critics suggest that the Nio is natural damined by a growth of weeds such as, it is alleged in 1963 and 1874 formal wast lakes and so lowered Egypt's water supply from the Nit that Lypti in engineers were sent to cut these dams. This is not however Baker sopinion. It is also suggested that stancey getting quit of his course or forcid out by warlike natives has become entingled in the swamps caused by inch an overflow. A glance at the must will show their improprish this years.

HUNTERS SAVED BY BLES.

Hemarkuble Affronture of a Party of Sportmen in the Groat National Park. G O. Shickin in Harper's Magnaine for Nevember In the fail of 4879 a party of three men were sight seeing and hunting in the Yellowstone National park, and, having prolonged their stay until late in October, were overlaken by n terrible snew storm, which completely blockaded and obliterated all the trails, and filled the guiches canyons and coulees to such a depth that their borses could not travel over them at all They had lain in camp three days waiting for the storm to abate, but that continued to grow in abate, but that continued to grow in severity, and as the snow became deeper their stituation grew duly and hourly more alarming. Their stock of provisions were low and they had no shelter sufficient to withstand the rigors of a win ser at that high attitude and it was fast becoming a question whether thus should excibe able to escape beyond the mow clad peaks ind snow hited i myens with which that were hemmed in Their only hope of escape was by abandoning their horses, and constituting snowshoes which inght keet them above the snow but in this case they outd not carry by being at 600 of cell him.

Writing in the London Lines of October 9 the years that it will be known that it will be known that it will be not only low. In it still studies and his cause and it causing enormous losses in 1 and 2.5 to 1 the most leastly route by a be to the most leastly route by the most leastly rou through snow in which only lift head an archiver visible with all to patince a per exercise of a turbiniold of The other lollowed him the stronger once in front and the weaker ones brigging, no therear. There were thirty seven in the bind and by the time they had all widered in the same line they left it an open well be deriveral. In function approached within a few justed of them. They were greatly abstract which was him, and made a few hounds a virious directions but seeing their struggle were in vain, they meetly a shrinked it.

In a moment the cump was a scene of ac tivity and excitement—tents—bailding pro-visions everything that was obsclutely nectivity and excitement. Len's boldling provisions everthing that was obclutely not essary to their journey, were hurriedly packed on their pack animals, saddles were placed rifes were slung to the saddles, and leaving all surfus baggage such as trophies of their hunt mineral specimens and corross of various kinds for future comers, and they started for the elk trait. They had a slow tedious and laborious task breaking a way through the deep snow to reach it, but by walking aid leading their saddle animals ahead the pack animals were able to follow slowly. In all, they reached the trail of the elk herd, and following this siter nune days of tedious and painful tray eling the party arrived at a ranch between the ipner falls of the \( \) ellowstone river and Yellowstone like on the Stinking river which was kept by a squaw man' and his wife where there they were en able to lodge and reprint themselves and their stock and wherice they himselves and their stock and wherice they he again the fall of elk passed on down the river and our tourists never saw then again but they all have doubtless longer this fullen is prey to the ruthless war that it con tinity leng wiged against them by bitters white and red.

LONDON'S LORD MAYOR

Elected With Less Talk But a Good Beal More Ceremony Than New York's. November Century
The lord mayor of London is elected from
the twenty six aluerman or heads of the
wards into which the city is divided by the
votes of the livery that is of the members of the everal guilds of the city cheeted at the Guild half on the feast of bl. Minhael the archangel Tew more interest-ing ceremonics are to be seen in England. A Michael the archangel Tew more interest ing ceremonics are to be seen in England. A wooden screen is creeted out ide the studied half with many door ways in it. At each is stationed the beadle of a guild who is expected to know all the I very men of his company, and so to prevent unauthor suffers of the foundhalf is strewn with sweet herbs parhaps the last surriving in studies of the medical is strewn with sweet herbs parhaps the last surriving in studies of the medical is strewn with sweet herbs parhaps the last surriving in a time scarlet gowns. The recorder or law officer of the city rises bows to the ford mayor and the assembled liverymen and michael at little speech declaring how form the time of king John they have had grants of certain rights of election. The lord mayor and alderingen then go out, another law officer the configure sergestry, repeats what the recorder has already said and tells the liverymen that they must name two for the offlice of lord mayor of whom the lord mayor and alderman will select one. Two names are then chosen and are carried to the aldernien by the heads of some of the chief guids. One is selected and therei pon the lord mayor and the aldermen return to the fundshalf and sit down the chosen future lord mayor sitting on the left of the actual lord mayor. The recorder again rises and

to the aldernuen by the heads of some of the chief ands One is selected and thereir port the lord mayor and the aldermen return to the fundhall and sit down the chosen future lord mayor attent on the left of the actual lord mayor. The recorder again rises and reads the two names and the one selected asks the livery men if it is their selection. Year No. They shout Yea! and the sword hearer thereupon takes off the uppet of the lord mayor to be mod puts a cinin around his neak. On the 8th of November there is another meeting in the Guildhall. The old lord mayor rises and gives the new one hi seat. The chamberlain of the city then approaches with three solemn bons and hands to the new lord mayor a jeweled scepter the common seal of the city and an ancient purse. The sword bester next advances and bowing three times each time with increasing reverence gives the lord mayor clock the great two handed sword of state which symbolizes justice and legal supremacy. The crier with bows equat in number and profun div to those of the sword beater then approaches and presents the mace. The aldermen aid herrif then congratulate their new chief who proceeds to sign certain documents and among them a re ept for the city plue. I ast of all he is presented with the keys of the standard weights and measures deposited in his custody. The substitute is been also for the last time. The next day the 9th of November is known in I ondon as loud mayor's day because ou that morning the new lord mayor tales office in the Guildhall. He drives thence through the ward of which he is alderman and proceeds in gaidy procession to the courts of haw within the bounds of the courts of haw within the bounds of the courts of haw within the bounds of the courts of the will have a long procession to the courts of haw within the bounds of the courts of the will have a long procession of the carriages of the aldermen and of the heads of the

I sum a exclarmed the youth as he had he arm tundly on the back of her hair now that you have promised to be much surely does not seem to be asking too much

if I—
Well George?
George took her hands in his swal owed once or twice spasmodically and proceeded As your affinized husband I aira whom you will some day promise in the sight of heaven to love honor and—er—cherish you will not think it presuming dearest I hope, if—II— Well George?
If I venture to claim the privilege of a

h—kiss?

The lovely mander laid her head trustingly on the young man schoulder a tende light shone in her dreamy eyes and her fragrant breath swept the check of the rapturous lover as she softly murmured (seerge don't be a clam

The World's Men of Millions
Montreal Star
I rom statistics just published, dealing with
the richest men living we learn that there
are about 700 with over a million sterling of
whom 200 reside in England 100 in the
United States 100 in Germany and Austria
75 in France 50 in Russia 60 in India and
125 in other countries. The richest among
those millionaires are the following. Jay
frould the American ruilway king worth
£55 000 000 annual income £2,000 000
Mackay £20 000 000 £2 000 000 Rothschild

Heryous, Tired Women Cured by Food.

Nervous exhaustion comes from mai nutrition or the nerves. A noted scientist has discovered that if the sibumen which feeds the nerves is not fully digited to the considerate of word it cannot be absorbed by them, hence starvation and exhaustion. Consequently trey are nourished only in proportion to the shilty of the stomach to prepare their food which is the most difficult of all the foods to digest as it must be perfectly done. Not one stomach in five can prepare a sufficient quantity. Hitherto artificial diges from has only been skip to digest it fine enough for the blood which only stroutsted in the muscles and bones. Three years ago the way overcome and show made has dured a large number of cases of paralysis and cargo the nervous and tred in a few hours. The preparation is sold at the druggitts as Woxts Nerve Food for 60 cente a quark bott.

WHY DON'T THEY IMPROVE IT

Attention has been called more than once to the horrible condition of Fifth street from

the OR & N Co s depot to G street For a clock and a half the mud is up to the huls of vehicles and in a short time the street

The prayarful attention of our street com-mittee and the equacil generally and the public at large is called to this matter

FUTURE PROSPECTS

They All Have a Sped Opinion of Portland, and Show it by Avanting Hard Coin

The future propects and greatness of Portland are so main to every one that we are now receiving great accessions to our circulating medium from realty investments

by nearly every stranger who visits the city

by nearly every stranger who visits the city Fspecially is this the case with visitors from the Bast and California. It seems at last to have dawned upon them that this is to be a big city and they are trying to get in while they cun do so at bottom figures. Recent merition has been made in these columns of numerous purchases by Eastern parties and now comes Miss Abbott and her opera froupe, who gree so enthusiastic while here over Portland's certain and rapid growth to an immense commercial city that they made

CHEWING COTTON -- One of the most

get teel of the O R & P Cos officials bet a box of candy with a lady friend on the result of the late election sud won leasterday the box was sent around to his office and opening it a store of delicious looking home made checolate creams was displayed to his gaz. He immediately flaced a couje of them where he thought they would do the most good and he has not done spitting to ton yet. On examination each of the sweet means was found to contain a jellet of cot for thinly coated with chocolate. The laugh is on the railroad man.

HE Lest He I has I Me ton was made vesterd to de bright glar with it immed the course sunder mgat su re eito mand vesters to the analysis and the electron the burning of a Chinese ranch near Guild's lake. Yesterday it was sweet as it that it was the barn and hog pens of Lee On Look on the Wisson place about four miles below town which were burned. If had about 100 hogs in the buildings which it was impossible to get out and they were rousted alive. Lee On Lock returned from a visit to his nature land just before the cx usion act went into force and having expended con miderable money on this trap he feels his loss more severely. He is a lover of roust pork in all its phases and would have had no objections to all his beloved porkers being roasted to a crisp and beautiful frown in the regular way but to see the lean earth hard ed with their lard and a bonfire made of his prospective pork profiles was tough indeed. He would much rather have seen the hogs butchered to make a Chinese holiday than going up in fluee and smoke, to cast a lurid glare on the low hour clouds.

THEY WAST THE FEES-Deputy I suted States Marshal Roberts who was dispatched to Omaha a few days since it bring back B. E. Janeway who robbed the mail at Spacer Linn county telegraphed oack yesterday morning that the murshal at Omaha refused to give the prisoner up to him. Later in the day he telegraphed that the matter had been decided by the United States rourt and he was starting for home without the prisoner This does not mean that the prisoner is not to be brought here but that the marshal at Omaha wants to bring him and secure the face Deputy Roberts had permission from the United States murshals of Idaho and Wyoming territories, through which he must pass to bring a prisoner through and at the Nebraska state line will probably demand the custody of the prisoner bo long as Janeway arrives here it matters but little to the general public in whrse custody he ingreds but it makes some difference to the officials who coinci the fees and who see the end of their terms looming up in the distance. States Marshai Roberts who was dispatched

UMBRILLA FIERDS.—With the advent of another rainy spell the members of this par itentar class of the human family are again getting in their deadly work. Complaints come in from aliquarters that these ambrella thieves are at work. At the mosts of the Y M C A they are expecully solve in the practice. Despite the close t watch of the secretary and other officers of the society scarcely a day passes that does not wintess the disappearence of several ambrellar This kind of petty thievery is becoming an unbearable nuisance and should one of the thinores be detected in appropriating an umberalla, he should be dealt with to the full extent of the law. If umbrellas were stolen in the summer the offense would not be so great but at this time of the year no sympathy should be wasted on such a that if one can be apprehended. Umenzula Frence.-With the advent of

CAMERA CLUB METRING -The Camera club has decided to hold a club magic lantern exhibition party at its rooms in the near futers. Mr W W Bratherton the president tere. Mr W Bratherton the president of the clab is in receipt of a prospectus of the international photographic festival and exhibition, which convenes in London on the 19th of next March. The session is commissionarity of the 50th anniversary of the discovery of the photographic negative by Mr Fox Talbot in 1830. I andel & Hawdin charuses will be given as part of the features which also include displays of causes effects and as extensive exhibition of competitive photographic work. In this all are invited to participate both amateur and professional through the Camera cub.

Working the Arts Brakes.—All who have

manal through the Cameri c ub.

Working the Ate Brukes.—All who have shood on the platform at the Northern Pacific depot and watched the train come in must have admired the neatness with which it is brought to a stand by the air brakes, just as the locomolive is within a few feet of the bulkhead at the end of the truck People at anding by this often move havily back as the train approaches thinking it impossible that it can be stopped before a collision occurs. But the eigener has the thing figured down time and always stops just where he wants to One of them, however made a miss hit the other day ind the bulkhead now stands at an angle with a big ragged cut in the cross piece. The air brake admirable a liece of michinery as it is sometimes fails.

Tho case was sucmitted to the jury shortly after 50 lock last evening. It 10 clust might an agreement had not been reached and Judge Stearns locked up the jury for the night.

tie mary for the might MOPE REPAIRS FOR THE NARROW GAUGE On netition of Mr C N Scott receiver Judge Deady sesterday made an order in the case of the Oregonian Railway Company (hmited) vs the O R & N Co allowing the receiver to issue additional certificates to the smount of \$20,000. Some time since Judge

nmount of \$20 000 Some time since Judge Deady made an order allowing certificates to be issued to the amount of \$125 000 for the jurpose of laying new uses on the narrow gauge road and in king other repairs. The \$20 000 ordered issued yesterday is its understood to put trestle bridges in good order. In regard to the decision expected from the supreme court of the United States in the case of the Oregonian Railway Company vs the O.R. & N. Co., a letter from Awashington says that the matter has been left in the hands of Judge Matthews who is such but it is now hoped that he may be able to deliver his decision next Mouday or the Monday after. It is to be hoped that a conclusion may be reached in this matter as it has been before the supreme court for about four years which is certainly long enough.

AT GLET ANDERSON B JUDGMENT The mandate of the state supreme court confirming the decision of the court below in the case of August Anderson vs. Nelson Ban nett was entered in part i state circuit court jesterday. Last year Anderson I grovered \$10 000 damages from the defendant for in junes received white working for Bennett on the Caecade branch of the Northern Pacific He lost his eyesight on account of a promature explaine.

SIMON ISAAC GETS A DIVORCE Sinon Isaac was granted a divorce from Cathar ne Isaac by Judge Stearns yesterday the complaint in this cuit was filed over three years ago. From the allegations contained if would seem that Sunon was a badly hen pecked hasband. The couple were married in this city January 21 1867. Simon charges if it he has been cruelly treated that since 1880 his wife has been an habitual drunkard and that she has kicked him knocked down and broken the windows in his me a market. Mrs. Leace denus all the ellegations.

WILL FIGHT FOR THEIR OFICE The six Chinamen-Ah Bow Ah Boo Ah The six Chinamen—Ah Bow Ah Boo Ah Anng Ah Wan Wa Ing and Ah Iling—arrested by Constable Keegan in an opium den everal nights ago were to be arraighed in Justice Phelan a court jestirday but as the defendants were not ready to proceed with an evanulpation their cases were continued until this afterbook. The Chinamen have engaged counsel and will contest what they term their rights

POLICE COURT LEVEN

An unusually small docket of criminals for a Monday grand occupied Judge Tanner in his judical chamber jesterday. John hagman and J Raymon two simple dronks paid the regular fine of \$2 each. John Brown and Jumes Wilson drunk and disorderly \$10 each. Claude Baker and Frank Harrison booked for drunkenness failed to respend when their names were called and their had of \$5 in each case was ordered forfeited, \$4. Simpott drunk \$5.

Simport drunk \$5

Ed Reed charged with vagrancy pleaded to the fire department was leading a horse out of No I hook and leader house vesterday atternoon the animat fell and in some way threw him against a wail, rendering him senseless Br hand who was called found that no bones were broken

ved tite of Biantha Murray annual report. The History of the Work is the Oity-The Board Continuing in Its Good Work-No Difficulty Expected

THE ORIGINAL Would like to publish a brief history of the tric succination of the public school children said a reporter to Trouble in the Jacobs Family Boing Business on by Horth Third Street Chairman C H Dodd Jesterday

The free vaccination of the children would naturally have followed the comput In the early part of the sun merasmall clothing store was opened on No th Phirit street between D and P streets. The proorietors were Mr. J. Jacobs and his wife sory order and Mr Dond but we did not want for that As spon as the prevalence of the discase became mail est I went to some sins to look the matter up as practiced in other cities and found that we had a prece Storting with a small stock of goods they be to the construction of the construction o other cities and found that we had a precedent in New York Chicago. St. Long and Sai I refered. In compary with thich of loikee Parrish I went to the major and suggested that we should adopt this rule of other cities string that I thought I the city would form hother that I the point I the city would form hother the second who would to uniteer to do the work. This was on Thur

a sited if the stocal displacence the interest of Mr. Jacobs are until at ut house I verything, went smooth it until at ut house how he was a large that her had but wife in detection of the charge that her had but wife in detection with the goods. Investigation was made and the store was found relieved of all it stell. In the meantine Mr. Jacobs returned from his trip and when he discovered it at it is store was die red out the cut of how le of having done it. He charged her with having taken the money and having either shipped the goods way or converted them into money. uniteer to do the work. This was on Thur did the 8th first int.

Mayor Delight initial, reed to the proposition and we wire! Do for Park Fivlor Nichols Raid Within and Herry Jore Josephi Strong I ell Hote. Wilson Me Hr y I refer B inswang i and Frien in with these a number of students who acted as year that. Chief I true he formished us or the first data we use it in a Sturlay the 18th with all the point their obtainable in the cit. Third y we vice in additionable in the cit. Third y we vice in additionable in the cit.

either shipped the goods way or converted them into money. While mitters were standing in this shape is a Jacobs packed up her belongings and left the city. At about the same time it was sourced that the clerk Layman had disappeared also. Mr. Jicobs in some way learned of the route taken by his wife and swore out a warrant for her arrest. Mrs. Jacobs had taken the steamer Olympian enrute to Nutonia but on a disputch scott from their of Foice Paril has wis prrested on board it attempt pefore reaching her destination. unts de he until last Laured by when we evel 3.0 When do you get these points from

When do you get mess points from.
All the vacetic viru we have it is consistent Marietta the Shaler village of Pernsylvain and are prepared justs in Ale ander and partly by the I astern \ \circ circ list tate
\text{ tout how many children have availed their serves of your provision \( \)
We have vacant ted the following number. rib she was prested on board it osten the she was prested on board it ostenner before reaching her destination the steamer before reaching her destination to the prion and will be brought back as soon as the necessary requisition papers are received from U junia. When she returns the difficulties now existing between herself and bushand will be clared up and the whe cabouts of the money and goods will no doubt be ascentained. Mrs. Lanman the wife of the clark claim.

This leaves something like 2100 out of the 300 of the city's enrolled attendance I think that of this remainder fully from four to five hundred have been vaccinated at their homes by faintly plus sleams. And the vast majority of the remainder undoubtedly are those excepted from the present requirement by a successful vaccination within the last four vesrs. I robably more than half of them have been vaccinated within two years. A good many went south last March during the ban Francisco smallpux scare when a doctor boarded every south bound train at Nies Junction and vaccinated everybody who needed it. This leaves something like 2400 out of the Mrs. Lamman the wife of the clerk claims that she mid least about \$200 in cash and lays the theft to Mr. Jacobs. Mr. Jacobs stranuously dentes it. Nevertheless. Mrs. I yman had a warrant sworn out for his at rest so that now warrants are out for both man and wife.

Jacobs has not yet been arrested. It is probably his intention to remain under cover until his wife is knought back. The Condition of a Portion of Fifth Street is Just
as Bad as Ever

Does the beard anticipate any trouble in executing the order?

Not at all I do not estimate that over ten children will have to be forbulden the schools. Some of the most promiuent objectors I have the best respons to believe all come into line. The teachers have been instructed to go through their rooms to-day and assortain how each child stands in the matter and call their attention to the rule it on I rules now any still remain unvaccinated the order is to turn their out.

Do not make any expectation in scrottlings.

In this matter I am for my own part dis posed to be isnient. In cases where it is claimed that the condition of a child's physi-

a slock and a half the mind is up to the hints of redictes and in a short time the street will be perfectly impassable. There is no other place in the city which needs improvent in so badly. It is to could that the city has not the power to compel the property owners to improve a street in such a case. The property along this horible, lace the only which all persons arriving by the O.R. & S. trains must be hauled belongs principally it is said to the Oregon Transfer. Company. C. H. Dodd and capital Handers. The last natured gentleman has called on the city officials and stated that he wished the street to be improved. No one who knows Mr. Dodd would for a minute suppose that he would object to the improvement. The O.I. to heing a corporation and having it could object to the improvement and the square of the street committee and the square for the street committee and the square should be shed to bring about this nuch needed improvement. What must strangers landed on the O.R. C.N. platform think of Portland as they look up the river of must through which we hales are sowly plouding their way to G street? They must think that real estate is thesp here and the this is a cheap city alto get ier. claimed that the condition of a child's physical system renders vaccination invade a written certificate to that effect will be required of the parents over the certificate of a physician of good standing Liven then however the decision in the marter will be left to the action of the board and I cannot forecast its action.

In addition I can only sev that a day does not pass but we are lastified in many citizans, who call on juriose to see us of their satisfaction with our course and their support of the enforcement of the commit support of the enforcement of the compul

A BAD RUNAWAY Mr Rigley Pirched Out and Severely Hurt-A Horse se logared it Was Killed

A serious rimaway accident occurred on bouth hirst vesterday afternoon. Mr Hig ley star ed out from his stable on Hooker street between lirst and Second driving a pair of horses. In some manner the au mais became I ightened and started on a run. In turning the corner into I irst street the coupling pole of the vehicle was broken about two feet behind the fore axle. The horses ran down First street and in front of h. lost spince the end of the couplin, pole caught against some obstruction pitching Mr Higley out. He struck on the back of his head and was rendered unconscious or reaching the corner of Meade street the horses went one on each side of a lamppost knocking it down and stanshing things up generally and nearly tearing a hoof off of one of the horses hind feet. The team then ran across the bridge and were stopped at the end. Mr Higley was picked up and found to have a had soalp wound on the back of his head. Dr. O. P. 8. Plummer was called and dressed the wound and Mr Higley was soon restored to consonousness and it is thought nothing sarious will result from his mishap A. veterinary swageon was justs became furthered and started on a it is thought nothing serious will result true
his mishep. A veterinary surgeon was
called to examine the in uner horse which
was a valuable animal and concluded that
the best thing to do was to kill it which was

Portland's certain and rapid growth to an immense commercial city that they made in region in the commercial city that they made in region in the commercial city that they made in region in the commercial city that they made in region in the commercial city that we had the commercial city that we had the region in the commercial city to the commercial city to the commercial city to the commercial city to the commercial city that the commercial city that the commercial city is a commercial city that the commercial city is a piece—this too by paving only \$20 down, and the belance in the monthly installments. They certainly showed good judgment in their selection as we regard this property as ont of the best investments to be had and as they bought some thirty lots or more they are certain to make a big clean up. The agents 13 Morrison street have resolved to hold the unseld lots at the same price for a few days longer.

Chewive Cotrov—One of the most THE ORDINANCE TO BE TESTED Bacamen Complain That the \$1 Monthly License is Outrageous

Since the ordinance prohibiting hacks standing to front of stores and houses except standing in front of stores and houses except with the consent of the occupants wept into effect the hong rows of hecks which formerly lined both sides of 1 irst street between Mor rison and Alder have disappeared and the cabbies draw up their vehicles only at a few places. The hackmen do not complain so much about this requirement as the one requiring them to pay \$1 a mouth in addition to the regular quarterly because for their rethicles. Sand a U.C. & B. T. Co. hackman to a reporter yesterday.

This \$1 a month license is outrageous and is not exacted in any other city in the United States. The company intends to test the ordinance in the courts. A test case will be made in a short time."
